

# Will Taubenheim

Keynote Speaker. AI Engineer. Founder, Lost Frame Ventures.

Will pairs frontier engineering with an operator's grasp of business. He is a 2x NASA award winning AI engineer and defense contractor who spends his weeks as a founder and fractional CTO, building AI that pays for itself inside wealth management firms, healthcare practices, real estate companies, and the trades. On stage, he translates both worlds into plain language and a plan your audience can execute the next morning.

2X NASA AWARD WINNER · U.S. DOD AI CONTRACTOR · META PARTNER (QUEST 3) · EPIC GAMES MEGAGRANT · GOOGLE GEMINI TEAM PARTNER · TECHNICAL LEAD, ESCAPE THE BACKROOMS

<p><b>2x</b></p> <p><b>NASA awards</b></p> <p>Selected from 1,200+ global submissions</p>	<p><b>20+</b></p> <p><b>AI systems shipped</b></p> <p>Healthcare, finance, real estate, the trades, defense</p>	<p><b>Weeks</b></p> <p><b>concept to production</b></p> <p>Deployed AI, not decks and roadmaps</p>	<p><b>248,000</b></p> <p><b>words of AI research</b></p> <p>Self-published State of AI report</p>

## SIGNATURE TALKS

### The AI Mindset

A mental model for AI that makes every tool and vendor decision easier. The flagship keynote.

### Scaling Your Business with AI

From concept to deployed in weeks. Real playbooks from live enterprise deployments.

### Protecting Your Business in the Age of AI

Deepfakes, shadow AI, and the one page policy every company needs.

### AI & Geopolitics

Chips, energy, and the arms race that will define the next decade.

### AI & The Future of Human Work

What automation actually displaces, what it creates, and how to be on the right side of it.

## WHY ROOMS BOOK WILL

- ✓ He speaks both languages. A working engineer who also builds and runs companies. Technical depth, delivered in business terms.
- ✓ **Nothing to sell. No software, no vendor pitch.** Rooms trust the talk because it is educational first.
- ✓ Audiences leave with a plan: a 90 day roadmap, a one page AI policy, and three questions to ask any vendor.

*"Within 24 hours of the summit, I used some of his examples to streamline tasks I'd been dreading for months. That one win alone made the summit worth attending."*

Maggie Uravich, Immanuel · Brookfield Chamber AI Summit attendee
